

JOB OPENING

Soil Tester / Maintenance Assistant

Majority of the year this position is focused on soil testing outdoors, operating an ATV and collecting soil cores. During the winter this position shifts focus to help with fleet maintenance.

- Operate an ATV in the field while using GPS and GIS to pull soil samples within specific locations and use a soil probe to collect soil cores at each site.
- Navigate using maps and plat pages in a truck and trailer to specified fields.
- Document field conditions, soil anomalies, boundary/field issues observed.
- Maintain a clean and safe work environment.
- In winter help maintenance manager with maintaining fleet and buildings

REQUIREMENTS:

- Must have clean driving record and valid driver's license
- Reliable transportation to and from work.
- Ability to safely operate an ATV over a wide range of terrains.
- Comfortable driving a truck and trailer hauling ATVs
- Ag background or degree in field of agriculture preferred but not required.
- Detail oriented with ability to self-motivate
- Must be able to work long hours in peak seasons (time and a half paid for over time)
- During soil testing seasons this position has a large portion of the work being done in corn and soybean fields. Applicants must be prepared to work outside in a variety of weather conditions.
- This job requires riding ATVs across rough terrain, the ability to push the probe in the ground and pull back out to depths ranging from 6 inches to 2 feet, and the ability to lift boxes around 75 lbs.

BENEFITS OFFERED:

- This job is paid hourly at \$16 per hour. Due to overtime, commissions, and bonuses, this position has the potential to earn an additional \$7-9 per hour on average. And can be a yearly salary of \$40,000-\$52,000 depending on acres sampled and hours worked.
- Health insurance for the employee at no additional cost
- After a waiting period, a 3% Simple IRA match is offered
- 1-week paid vacation, 6 days sick pay, and 6 paid holidays.
